| Item #: S-11 | <u>CHICKERING PIANO</u> | Minimum Bid: \$500 |
| This piano was actively used by Suzy Boghani until April 2017. Bo asked our very own pianist extraordinaire, Dr. Jon Grier, to play it and give feedback - here's what the Dr. had to say:

<i>This is a well-made living room piano made by Chickering, a reputable maker. It is a console - larger than a spinet, with a correspondingly bigger sound. I have played this instrument and the action is very responsive and firm; it will promote healthy hand mechanics. There is a small crack in the left leg that I do not believe is of any serious consequence. In my opinion this instrument is well worth the opening bid. It would be an ideal instrument for anyone, young or old, to begin - or resume - playing the piano. No electric piano can truly replicate the sound of an instrument like this.</i> | | Value: \$1,000 |
